

English assessment - Speech

Group B - 5 November

Group A - 6 November

Use your imagination to write your own fable. A fable is a story where animals, plants or things can talk.

For example: Lion King, Madagascar, Cars and Frozen. In each of these movies there are animals or things that can talk, but in real life it can't.

Bring your word cards to help you. Know your speech by heart and remember to use body language while telling the class your story.

Remember:

- to talk loud and clearly for 1½-2 minutes,
- your story should be written by you and may not be a familiar story,
- to understand what you are saying,
- to bring some pictures of the characters in your story to show the class,
- you are not allowed to read your entire speech from the word cards!

We can't wait to hear your fable.

Good luck
